Subject: Pop Modeling Framework paper - Next Revision
[Population models for ERA framework 6-12-17.docx](#)
[Supplemental Info Case Studies 5-22-17.docx](#)

Hey folks,

Thanks so much for the great feedback on that last draft, it really helped pushed this thing through. I'm attaching the next revision, which I'm hoping to get a quick turn around on from you guys and then send to external EPA review. We can continue to work on it after its sent out if there are issues that need to be resolved.

Some questions for you guys:

- Nate, can you do the sharepoint thing with this version like you did with the last?
- I'm thinking Valery Forbes for the external review. Thoughts? Suggestions?
- Ideas on journal? I will form the citations etc in the next draft, currently taking thoughts on a journal (I don't care for ET&C...)
- Kris, Andrew, Wade, are there any forms OPP needs the external reviewer to sign for your end?

Please provide me your comments in two weeks (July 1st).

Thanks!

Sandy
